Treat your clients' dry hands with Thermasoft Therapy Mitts and rescue rough feet with Callus Care by Care Beauty.

Indulge your clients with new Thermasoft Therapy Mitts. These self-heating gloves deliver Soyaffin Serum—an all-natural blend of shea butter, beeswax and soy serum—for a luxurious and moisturizing experience. Ideal as an add-on to any service, the heat therapy has several benefits, such as enhanced blood flow and relaxation of sore, stiff muscles—not to mention the soft, silky skin it leaves behind. **For more information on Thermasoft, circle 200 on the Reader Service Card, call 760.480.2672 or log on to [salonrev.com](http://salonrev.com).**

Care Beauty introduces a fast and effective formula that quickly breaks down calluses in its new Callus Care treatment. Great for pedicures, the gel product stays put; simply apply it to the calloused areas of your clients' feet, let it set for no more than five minutes, wipe it off, and then quickly and easily file away any remaining roughness. **For more information on Care Beauty, circle 201 on the Reader Service Card, call 877.227.3439 or log on to [calluscare.com](http://calluscare.com).**

# Thermasoft Therapy Mitts

**1** Pour water into the space between the mitt and its inner lining. The water sets off an exothermic reaction with the mineral-heavy serum packaged inside the mitts, generating heat.

**2** Massage the mitt with your hands to break up the serum while it's heating up.

**3** Place your client's hand into the inner lining of the mitt.

**4** Slip the cloth mitt over the heating mitt to hold in the warmth.

**5** After 30 minutes, remove your client's hand from the mitt and massage the product into her skin.

**6** After the treatment, her hand is moisturized and refreshed.

# Callus Care by Care Beauty

1 Apply product to the calloused area of your client's feet. Be sure to wear latex gloves or wash your hands immediately after application.

2 Let the product soak on the feet for three to five minutes.

3 Wipe the product off the feet with a towel.

4 File away calluses with a foot file.

5 Rinse off any remaining product and dry the feet.

6 Proceed with the pedicure service.
