Luraco Technologies Mini-Spa for Kids

1 Open the water valve.

2 Fill the tub with water.

3 Push the air activated jet switch to turn on the spa pump and light.

4 Kids can watch their favorite DVD during the pedicure service.

5 The adjustable seat allows kids to reach the footrest with ease.

6 Change the character by replacing the headrest. The drain controller is installed outside of the tub, making it easy to sanitize and disinfect after the service just like a standard adult pedicure spa. ♡
