Cuccio Naturalé Scentual Spa Signature Service Enhancement Kit

1 Spray the air with a spritz of aromatherapeutic Elixir.

2 Effervescent Fizz Balls can be used in manicures and pedicures. Simply drop one of the balls into the bowl or tub, let it dissolve and soak away.

3 Open the Aqua Leaves Disk and place the leaves in a tub of warm water. The leaves will dissolve in the water.

4 Remove your client's feet from the tub and wipe them dry. Gently exfoliate the skin with the Exfoliating Sea Salts.

5 After you have removed the client's hands from the soak, apply the Deep Dermal Transforming Wrap with the Application Brush. For more intense moisturization, wrap her hands in plastic and place them in a heated mitt. Leave the mitt on for about 15 minutes, then remove it and wipe the hands clean.

6 To finish the service, apply the Body Butter Blend to both hands and feet.

Nail Labo Nail de Dance Acrylic Nail System

1 After prepping the nail, apply 1st Step to dehydrate it.

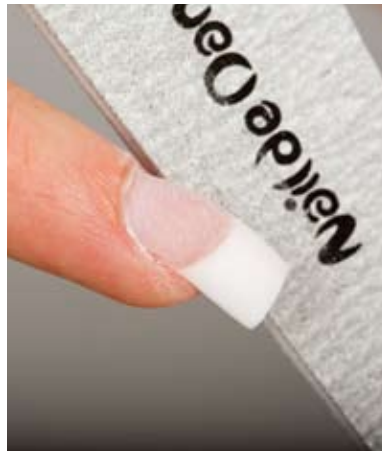

2 Apply a thin coat of primer.

3 Place a form under the nail. Build the free edge of the nail with Kazak White.

4 Apply a bead of Ballet Pink to the nail plate and continue building the enhancement.

5 Start refining the enhancement with the 150/180-grit file. Work the surface using the 100/180-grit sponge buffer, and then smooth it with the 220/280-grit sponge buffer. Make the surface shine with the three-way buffer, and for extra gloss, use the two-way shiner.

6 Apply cuticle oil to the finished nail. ↓
