

Lock Down

After your clients enjoy a skin-softening experience with Depilève Milk and Honey Nutrition Paraffin from Divi International, give them a manicure that will stay put with the Zoya Color Lock System from Art of Beauty.

Depilève reformulates the centuries-old secret of soothing milk and honey baths to bring you Milk and Honey Nutrition Paraffin. Enriched with ingredients of modern science, this regenerative paraffin delivers the ultimate moisturizing treatment. Clients will enjoy the relaxing aroma and see softer skin after the first use. **For more information on Depilève, circle 200 on the reader service card, call 800.233.7453 or log on to depileve.com.**

Make your manicures look great and last longer with the Zoya Color Lock System from Art of Beauty. The system includes Remove+ to moisturize, nourish and fortify the nail plate while acting as both a nail cleanser and prep; Anchor Basecoat, which adheres nail polish to the nail by forming a bond between it and the nail plate; Armor Topcoat & UV Block for a brilliant shine and chip-free finish; and Hurry Up Speed Dry Drops to dry polish in just five minutes and prevent bubbling. **For more information on Art of Beauty, circle 201 on the reader service card, call 800.659.6909 or log on to artofbeauty.com.**

Depilève Milk and Honey Nutrition Paraffin

1 After cleaning both your hands and the client's hands, further prep your client by massaging her hands and arms with Milk and Honey Peeling Exfoliating Lotion until it is completely absorbed. Next, apply Milk and Honey Emulsion and massage it into the hands and arms. While you are prepping your client, you should warm and stir the paraffin to evenly mix the ingredients.

2 Dip the hand in the paraffin up to 5 times. Wait until the paraffin drip stops between immersions.

3 Let the paraffin set for 15 min. To boost the effect of the paraffin, slip the hand into a protector bag and cover it with a terry cloth glove.

4 Remove the paraffin from the hand and discard all used products. Carry out a deep joint rotation massage. Then moisturize and massage once again with Milk and Honey Emulsion.

Art of Beauty Zoya Color Lock System

1 Remove all traces of existing polish and clean the nail bed with Remove+.

2 Apply one coat of Anchor Basecoat.

3 Apply two coats of any Zoya nail lacquer.

4 Apply one coat of Armor Topcoat & UV Block. The client can reapply this product every two days for extended color wear.

5 Place one Hurry Up Speed Dry Drop on the base of each nail and tilt the client's hand to allow the product to spread naturally. ↓
